📍 Minneapolis, Minnesota

### EXPERIENCE

#### Full Stack Engineering Student

Prime Digital Academy    📅 04/2018 - Ongoing    📍 Minneapolis, MN

- Prime is a 20-week immersive Software Engineering bootcamp
- As a student, I created a web app for Transgender people in Minneapolis
- Users of my app can search and save local, safe businesses and resources
- On my solo project, I used: React, Redux, SQL, Semantic-UI, Node.js, Visual Studio Code
- What did you achieve in this role?

#### Independent Contractor

Young Living Essential Oils    📅 2011 - 2018    📍 Various Locations, MN

- Assist over 1000 distributors in my direct organization to increase sales
- Maintained a busy schedule teaching classes, giving presentations, coaching leadership teams, and conducting product research studies

#### Musical Director

Curtain Call Community Theatre    📅 2004 - 2016    📍 St. Cloud, MN

- Directed, Music Directed, and Accompanied annual theatre productions
- Developed marketing strategy alongside Producers
- Worked closely on Production Teams of 5-8 to produce successful shows

#### Private Piano and Vocal Teacher

Self-Employed    📅 2000 - 2016    📍 Various Locations, MN

- Developed students instrumental techniques and abilities
- Acquired appropriate music pieces based on skill levels of students
- Assessed students' abilities based on classical training methods

#### Assistant Music Director

Great River Educational Arts Theatre    📅 2016    📍 St. Cloud, MN

- Piano accompaniment for performances, orchestra, and cast rehearsals
- Vocal coaching, character development, and music education
- Collaborate with production team on scheduling, and cast engagement

#### Operations Processor

Capital One Bank N.A.    📅 2014 - 2016    📍 Saint Cloud, MN

- Exceeded set performance metrics (163%) based on speed and quality
- Used problem-solving strength daily with a high attention to detail
- Kept a meticulous calendar while working autonomously

#### Market Recruiter - Rotational

Capital One Bank N.A.    📅 2015    📍 St. Cloud, MN & Boston, MA

- Achieved a 40% conversion rate of interviewees to hired positions
- Implementation of Social Networking for recruitment needs
- Conducted talent profiling and market research to discover talent prospects

### STRENGTHS

#### Strategic

I'm able to wrangle a rowdy choir of actors portraying nuns to produce a successful (and well-sung!) production of "Sister Act"

#### Futuristic

I'm a team cheerleader and dreamer; thinking about how my projects will help others is almost more energizing than the 2 PM cup of coffee...almost

#### Achiever

"All I do is win, win, win, no matter what." Okay, that's not true, but I do get a thrill from moving a Post-It to the "Done!" section on a Scrum or Trello board

#### Leadership

"Leaders create more leaders, not followers." I believe in great culture, embodying and living that culture, and empowering teams to do so in return.

## PROJECTS

### MPLS Transgender Resource Project

📍 Prime Digital Academy

Created a Full Stack Web App for Transgender People in Minneapolis.

- Transgender people are faced with the possibility of going into an unsafe environment when entering a business which is new to them
- Users of the web app are able to find local and safe business resources
- Tech used: React, PostgreSQL, Node.js, Git, VSC, Semantic-UI, and Redux

### Get Up Stand Up 2 Cure Paralysis

📅 07/2018 - Ongoing 📍 Prime Digital Academy

Spinal Cord Injury Research Map Database (SCIRMD) web application

- Currently developing a geolocation based database for spinal cord injury (SCI) research
- My role is Front-End development and UI on a team of five developers
- I am using Material-UI, React, HTML, and CSS to build the app theme and stylistic components
